GUIDE OVERVIEW & ELECTION BOARD ROLES

REMINDER: VOTED MAIL-IN AND ABSENTEE BALLOTS **MAY NOT** BE TURNED IN AT THE POLLING PLACE. VOTED BALLOTS CAN ONLY BE ACCEPTED AT THE COUNTY BOARD OF ELECTIONS OFFICE IN CITY HALL ROOM 142, OR ANOTHER LOCATION/DROPBOX DESIGNATED BY THE BOARD OF ELECTIONS.

HOW TO USE THIS GUIDE

Dear Poll Worker,

Thank you for playing an important role in our community!

This guide is intended to make your Election Day run as smoothly as possible. Please take your time reading through to familiarize yourself with rules and procedures. To make things easy, we've broken the guide into simple sections.

1. **Preparing for Election Day** - Charts, lists, and practices that will ensure that your whole Board of Election is trained and prepared for the day's expectations.
2. **Polling Place Set Up** - Guides to help get the polling location ready. This includes Network Box set up, ExpressPoll electronic poll book opening procedure, the Machine Inspector guide and voting machine set up, a review of the election materials box (Oath of Office, backup paper payroll sheet, polling place signage, voter assistance forms, and more), a poster checklist and polling place behavior.
3. **Reference** - Important legal information and issues that may arise on Election Day.
4. **QR Code Signs** - To be posted for voters in line to determine that they are in the right polling place and that they are in fact registered to vote. There are more languages available for printing at vote.phila.gov. Poll workers are encouraged to copy these to have extras hanging around the polling place. QR code signs are located on **Page 47** of this guide.

Thank you for your commitment to ensure fair and safe elections for every Philadelphia voter.

ELECTION BOARD ROLES

No matter the role, all members of the Board are there to make sure that voters have a safe, secure, and enjoyable experience while voting.

Judge of Election (*Elected or appointed by the Court of Common Pleas*) - The Judge of Election manages the polling place by ensuring that the board is staffed and trained in advance of the election, picking up the Materials Box the weekend before the election, and assigning roles and tasks on Election Day. Read through the guide for further detail on the Judge's role. Ideally a Judge will thoroughly familiarize themselves with all roles on the board, including Machine Inspector, to better assist their board. The Judge must also assign breaks to all poll workers. Only one poll worker should be on break at any given time, and breaks should be given during less-busy times.

Staff Your Board in Advance! Most vacancies can be avoided if the Judge of Election checks in and follows up with their Board at reasonable intervals prior to the election. If you don't know who is elected or appointed to your board, call **(215) 685-4811** during business hours to request contact with your Judge or board members. Make sure to have your ward, division, and role ready when you call.

Majority Inspector (*Elected based on the highest number of votes in the "Inspector" race or appointed by the Court of Common Pleas*) - The Majority Inspector will perform tasks and duties as assigned by the Judge of Election.

Minority Inspector (*Elected based on the second highest number of votes in the "Inspector" race or appointed by the Court of Common Pleas*) - The Minority Inspector will appoint a Clerk prior to the election and perform tasks and duties as assigned by the Judge of Election. Additionally, the Minority Inspector is responsible for signing specific documents throughout Election Day and takes home and retains the number 4 envelope for one year after the election.

Clerk (*Appointed by the Minority Inspector*) - The Clerk traditionally writes the information of each voter, including absentee and mail-in voters, into the yellow 2 and 4 books but the Judge may choose to assign the Clerk different tasks.

Machine Inspector (*Appointed by the City Commissioners*) - The Machine Inspector is responsible for setting up and taking down the voting machines. During voting, the Machine Inspector will instruct voters before they enter the booth.

If any elected or appointed official does not arrive by 7:00 am, vacancies can be filled by any voter registered in the division. *Judge of Election can appoint a Majority Inspector; Majority Inspector can appoint a Judge of Election; Minority Inspector can appoint a Clerk.*

You can call **(215) 685-4811** to fill the Minority Inspector or Machine Inspector roles. If no one is available for those, or any of the above roles by 7:30 am, any voters registered to the division can **"curbside elect"** any other registered voter from the division to any vacant role for this election only, by show of hands.

What's a curbside election? When there's an unfilled position on election morning, ANY registered voter in the division can be "voted" in to a role, by show of hands. This election applies only to that Election Day and does not constitute an appointment or election for the remainder of the term.

MACHINE INSPECTOR GUIDE

In this section, you'll find resources for the Machine Inspector, including detailed set-up and take-down checklists, a visual machine diagram, and troubleshooting guide.

MACHINE SETUP - COMPLETE IN ORDER

- ☐ • If you have a network box on your A machine, turn it on by pressing the silver button. The button will turn blue when powered on.
- ☐ • Confirm your ward and division on all machines.
- ☐ • Plug the first machine into the power source. Then piggyback each additional voting machine into the next machine. Check for the green light in the upper front right corner of each machine. This confirms that power is working.
- ☐ • Lock the wheels.
- ☐ • Get the poll site seal card, lanyard with the machine password and key, a pen, the two red wire seals, and the vinyl bag from the materials box. Be careful not to lose track of anything.
- ☐ • Break the green seal on the front of the cover and throw away. Remove cover.
- ☐ • Record the numbers of the red wire and green seals on the poll site seal card and place red wire seals back into the election materials box. At the back of Machine A, break the green seal on the bottom compartment. Record the green seal number on poll site seal card, then throw seal away.
- ☐ • Use the key to unlock the bottom compartment of Machine A. Locate and remove the ADA device and headphones.
- ☐ • Place the ADA device above the compartment and ensure the headphones are plugged into the headphones port.
- ☐ • Ensure that the USB cable running from the ADA device is plugged in inside the compartment.
- ☐ • Notch the ADA device cable through the hole in the upper left corner of the compartment door.
- ☐ • Remove the blank ballots and place them at Station Two with the Clerk. Gently close and then lock the compartment.
- ☐ • At the back of Machine B, use the key to unlock the bottom compartment. Locate and remove the ExpressVote printers. Place the printers on the check-in table. The rest of the Election Board will set them up.
- ☐ • Remove any doorstops and/or power adapters. Give them to a teammate to set up where needed. Place the hopper bag in the rear compartment until it is time to close the polls at end of night.
- ☐ • Curtains are in the cylindrical, grey container attached to the back of the machine. Remove the cap to access the curtains, but do not remove the container.
- ☐ • Attach the curtains. Raise the curtain rod mounts by opening the white clamp on either side of the machine. Close the clamps when the rod mounts have reached their maximum height.

Continued on next page.

- ☐ • Place the curtain rods into the rod mounts and unroll the curtain.
- ☐ • At the rear of the machine, adjust the voting light so that it is visible to poll workers. When the light is on, a voting session is active. When it turns off, the voter has completed their vote.
- ☐ • Open the front top white compartment using the key on the lanyard.
- ☐ • DO NOT TOUCH the red wire seal inside the compartment.
- ☐ • Note that the USB stick is already inserted. DO NOT touch it until close of polls.
- ☐ • Press and release the red power button to turn the machine on.
- ☐ • Remove the yellow seal from the access compartment. DO NOT THROW THIS ONE AWAY.
- ☐ • Close and lock the media access compartment.
- ☐ • Attach the yellow seal through the small hole at the top center of the rear of the machine and record the seal number on the poll site seal card. This seal is the second way to “lock” the front compartment.
- ☐ • The machine should now be on. Enter the election code listed on the paper inside the lanyard.
- ☐ • You will see a loading screen, then the “Poll and Device Status Screen.”
- ☐ • Touch the bottom left-hand corner of the screen. Confirm that the following information is correct: election, election date, ward, division, and public count. It must read “Public Count: 0.”
- ☐ • On the bottom right-hand corner of the screen, tap the green “Open Polls” button and reenter the password from the lanyard.
- ☐ • Tap the blue “Accept” button in the bottom right corner of the screen.
- ☐ • The zero results report will begin printing.
- ☐ • Feed the tape through the rear of the machine so that it never touches the screen.
- ☐ • The results tape must show “0” votes cast for each candidate and ballot question. Each poll worker must sign the results tape to indicate that they witnessed the 0-vote tally.
- ☐ • Put the signed results tape from each machine in the white envelope located in the zippered vinyl bag from the materials box. Do not seal the envelope.
- ☐ • Tap “Continue” on the screen.
- ☐ • Angle the screen to a comfortable position by pulling on the bottom of the screen. You can apply pressure to the top of the screen at the same time to make this easier.
- ☐ • Gently close and then lock the front compartment.
- ☐ • Keep the lanyard with you.

ASSISTANCE DURING VOTING

If a voter asks for help, the Machine Inspector may stand outside the booth and verbally instruct the voter how to use the machine without an ‘Assistance Declaration’ form.

SERVING VOTERS WITH LIMITED ENGLISH PROFICIENCY

Per federal law, all materials needed to enable voters to vote on Election Day are available in English, Spanish, and Chinese. For divisions with a large number of limited English proficiency voters the City Commissioners will test, certify, train, and assign Interpreters to provide in-person language assistance in a variety of languages, via bilingual interpreters or our phone Language Access line. Some divisions may have bilingual Interpreters assigned for other languages. In order to serve, all interpreters **must** be certified by the City prior to the election. Certified interpreters will bring an Appointment Letter from the City Commissioners to the polling place, listing their assigned Ward/Division. Need does not guarantee availability. Boards may recruit interested bilingual parties and request certification by calling **(215) 685-4811** as far in advance of the election as possible. More info at vote.phila.gov/working-the-polls/bilingual-interpreters

Language Assistance from a Child, Relative, Friend, Neighbor, or another Voter:

Under Federal and State law, a voter who is disabled or who cannot adequately read or write English can select anyone the voter chooses, including the voter's minor children, to provide oral language assistance. A voter **may NOT** receive assistance from the voter's employer or an agent of that employer, or from an officer or agent of the voter's union. State law also prohibits the Judge of Election from providing assistance in voting. However, the Judge may be permitted to provide language assistance if:

There is no one else available to provide oral language assistance AND the Judge speaks the required language proficiently AND the voter chooses the Judge to provide language assistance.

If the voter's record in the poll book is not marked "Assistance Permitted," an "Assistance Declaration" form and the "Record of Assisted Voters" form must be filled out before voting.

Phone Interpretation

Boards may access phone language assistance for 173 languages via the city-provided cell phone. The instructions for using this service, including identifying a voter's language, can be found in the purple folder.

ACCESSIBILITY FOR DISABLED VOTERS

Modifications may be needed to provide access for disabled voters. If provided, they must be in place before polls open. Call **215-686-1523** with any issues. See station card for more detail.

REFERENCE

AUDIO KEYPAD/HEADPHONE DEVICES

The Help America Vote Act (HAVA) requires all states and counties to use voting systems that are equipped to afford individuals with disabilities the opportunity to privately and independently cast a ballot. Philadelphia County's machines are wheelchair accessible and are also equipped with a Universal Voting Console (UVC).

An Election Board Official will find the UVC ready to be connected to the A machine, but it will work on any ExpressVote XL. Election Board officials may not discourage voters from using the UVC if they desire to do so.

Universal Voting Console. UVC allows voters to vote without using the touchscreen. NOTE: A visually impaired voter is NOT required to use the UVC if the voter chooses to have an individual provide voting assistance.

Initiating the UVC Voting Session. After the paper ballot is inserted and the ballot displays on screen, press the Select button. On the confirmation screen, press the Next key. This initiates Assistive Mode on the terminal and produces the Help screen. Press Next (Right) to exit or Select to generate a blank screen to provide voter privacy. Assist the voter with adjusting volume, if needed.

Voting with the UVC. Voters using Assistive Mode will use both the UVC to navigate and headphones to listen to audio ballot instructions on how to complete their ballot. Headphones connect to the jack in the lower-right side of the UVC. The voter will use the UVC to make vote selections, finalize, print, and cast their ballot.

Voting with a Dual-Switch Device. Voters may use a dual-switch device, such as a rocker paddle or sip and puff device, to navigate through the ballot, make vote selections, finalize, print, and cast their ballot. Dual-switch devices are not supplied by the County, and are brought to the poll site by the voter. Dual switch devices connect to the jack on the lower left side of the UVC.

COURT ORDERS

Voters who appear at a polling place with a court order **MUST** vote by Provisional Ballot **UNLESS** the voter's registration record is found in the Division's poll book.

Election Board Officials must adhere to the following procedures for each voter who arrives at the polls with a court order to vote on Election Day:

Check the poll book before providing the voter with a Provisional Ballot.

- If the voter's name IS listed in the pollbook, write "In Pollbook" on the court order, and follow the procedures outlined in this guide for voters whose names are listed in the poll book.
- If the voter's name is not listed in the poll book, then the voter must vote by Provisional Ballot.

REPORTING NECESSARY POLL BOOK CHANGES

Each Division will be provided Discrepancy Sheets. The Discrepancy Sheets may be found in the purple folders. Election Board Officials should use the Discrepancy Sheets to inform the City Commissioners of any changes that should be made to voter registration records.

The City Commissioners will use this information to:

- Correct errors to voters' name or date of birth information
- Confirm and remove records of voters who are reported as deceased
- Begin the Voter Removal Program by designating records as "Inactive" and mailing Address Verification Notices to registrants that Election Board Officials report as having moved out of a Division.

INACTIVE VOTERS

Federal and State laws require that the City Commissioners conduct a Voter Removal Program once a year and mail a forwardable Address Verification Notice (AVN) or Five Year Notice to the address listed in the voter's registration record. These notices include a response form and a postage-paid, pre-addressed return envelope for the voter's response. The department uses information from the United States Post Office, PennDot, and poll book Discrepancy Sheets to trigger the mailing of an AVN or Five Year Notice. Voters who have not voted in any election for at least five years also receive such mailings.

Voters who do not respond to the notices are designated as "Inactive." Inactive voters' registration records will be updated to reflect a new address, if this information can be obtained from the Post Office. An asterisk will precede each inactive voter's name on the Division Street List, and the inactive voter's record will be yellow in the ExpressPoll tablet, and the comment will explain that an Affirmation is Required. The department will use the information provided by the voter on the Affirmation of Elector forms to update the voter's registration record after Election Day.

CANCELLATION OF RECORDS

Federal and State laws require that the department follow certain procedures before canceling the registration of a voter who has moved. Voters who do not respond to the AVN or Five Year Notice form, fail to contact our office, and do not vote by the 2nd Federal General Election after the mailing of the notice, will have their registration record canceled. Inactive voters whose registrations are canceled will be removed from Division poll books and street lists after the expiration of the prescribed time period, which always falls in December of each even numbered year.

CHALLENGE OF VOTERS FLOWCHART

Election Worker, Poll Watcher or another voter can challenge:
a voter's **identity** (the voter is not who they claim to be)
or the voter's **residency** (i.e., the voter does not reside in the precinct).

Voter should prove their identity/
residency to the Judge's satisfaction.
Easiest way is by producing ID.

EXPRESSPOLL TROUBLESHOOTING

WHAT SHOULD I CHECK WHEN EXPRESSPOLL DEVICE IS TURNED ON?

- Check the polling place you are logged into is the correct polling place.
- Check that all the icons in the top right corner are green.
- Verify that the Election Name and Election Date are correct.

WHAT SHOULD I DO IF THE CLOUD ICON IS YELLOW?

ExpressPoll is establishing connection to the server. This may occur Before Polls Open Only.

Allow 5 minutes for ExpressPoll to receive supplemental update. If Yellow Cloud persists (before Polls Open), reposition ExpressPoll for better signal strength (closer to Network Box). ExpressPoll automatically reestablishes connection every 5 minutes to cloud before Polls Open.

WHAT DO I DO IF ANY OF THE ABOVE ICONS ARE RED?

If the printer icon is red, the pollbook is not connected to a printer.

1. Ensure that the printer is connected to the pollbook.
2. Ensure that the printer is connected to power and turned on (blue indicator light).
3. If the icon is green this means all expected printers are connected.

IF CHECKMARK IS RED, EXPRESSPOLL IS NOT CONNECTED TO NETWORK BOX.

1. Confirm Network Box is powered ON in your polling place.
2. Confirm all ExpressPolls in your division are turned on and logged in.
3. If Network Box is turned ON AFTER log-in, allow up to 5 mins to connect.
4. If issue persists, reposition ExpressPoll for better signal strength (closer to Network Box).

IF CLOUD IS RED BEFORE POLLS OPEN, EXPRESSPOLL IS NOT COMMUNICATING WITH HOST FOR SUPPLEMENTAL UPDATE.

1. BEFORE Polls Open at 7:00 am - after logging into ExpressPoll - a green cloud should be present. If RED, Confirm Network Box is powered ON. This also applies to checkmark icon. Checkmark should be GREEN.
2. If checkmark is red, ExpressPoll is not connecting to Network Box. Follow Red checkmark steps.
3. During Polls Open Hours, after 7:00 am, Cloud should be RED.

IF THE CIRCLE ICON IS RED WITH AN X IN THE CENTER, THE POLLBOOK IS NOT COMMUNICATING WITH ITS PEERS (PEER-TO-PEER).

1. Confirm the Network Box is powered ON in your polling place.
2. Confirm ALL ExpressPolls in your division are turned on and also logged in.
3. Confirm Green Checkmark icon is onscreen.
4. If issue persists, reposition ExpressPoll for better signal strength (closer to Network Box).

EXPRESSPOLL TROUBLESHOOTING

WHAT SHOULD I DO IF EXPRESSVOTE PRINTER IS NOT DETECTED BY THE EXPRESSPOLL TABLET?

This might happen when the printer is not properly connected to the device or to the power source.

To correct the issue:

1. Check cords to make sure the printer has power, is turned on, and is connected to ExpressPoll.
2. Shutdown the ExpressPoll.
3. Disconnect the power cable from power source AND USB cable from the ExpressPoll
4. Reconnect the power cable and make sure both the power cable and data cable are properly connected to the printer.
5. Reconnect the USB cable from the printer to the ExpressPoll.
6. Turn ON the printer (long press the power button).
7. Power ON the ExpressPoll device.
8. If you have already attempted to reestablish the connection following the instructions in the previous section, please check in the voter by "Reissuing" another ballot using a different ExpressPoll device.
9. Attempt to replace the ExpressVote printer. If there is no other printer available, do not continue to use this pollbook to check in voters and issue ExpressVote activation cards.

WHAT SHOULD I DO WHEN I CANNOT FIND A VOTER BY SEARCHING

This might happen when too much information has been entered into the search fields.

To correct this issue:

1. Type the first three (3) letters of the voter's last name in the Last Name field, and then type the first letter of their first name in the First Name field. All voters who meet this criteria will be displayed in the Matching Results list.
2. Type the first three (3) letters of the voter's first name in the First Name field, and then type the first letter of their last name in the Last Name field. All voters who meet this criteria will be displayed in the Matching Results list.
3. If you cannot find the voter in the Matching Results list, touch Clear All. Type the voter's birth date in the Date of Birth field using MM-DD-YYYY format.
4. Expand your search Citywide using the "By County" button in the top-right corner of the ExpressPoll screen.
5. Call the City Commissioners' Election Hotline at **215-686-VOTE** (8683) for help.

ExpressVote XL Device Turns Off & Will Not Power Back On	The device could be disconnected from AC power and has run out of battery power.	The backup battery for the terminal can power the ExpressVote XL, when fully charged, for 7 hours. If the terminal is plugged in properly, verify the AC outlet has adequate power. If unable to resolve, call 215-686-7800 .
ExpressVote XL Not Accepting Paper Ballot	Although causes vary, the more typical reasons for card jams are: • Voter is using a machine from the wrong Division • The blank paper ballot is damaged or defective, or • Ballots within the hopper are settling improperly, blocking additional ballots from being inserted	These suggestions may help: • Confirm ward and division in bottom left corner of ExpressVote XL screen matches the voter's division. • Try re-feeding the ballot into the activation card slot, being careful to feed it as straight as possible. • Check the card to ensure there is no damage. If the paper ballot is damaged, spoil the ballot, and issue another ballot to the voter. • Ensure ballots are settled into bottom of the hopper. Unlock and open the side access door of the ExpressVote XL; remove the ballot hopper; open the front transport access panel and ensure ballots are not curled/blocking the path. Gently shake the hopper to loosen and settle any stuck ballots. Ensure all voted ballots remain in the hopper and reinsert hopper into ExpressVote XL. If issues persist, call 215-686-7800.
Jammed Paper Ballot	Typical reasons for ballot jams are: • The ballot was inserted incorrectly, • The Paper Path Module rollers are not functioning properly.	Follow on-screen instructions to know if the ballot has already been counted or not and whether the ballot should be spoiled or inserted into the Hopper. Unlock and open the side access door to the Paper Path Module. Remove the hopper and open the front transport access panel. Locate and clear the jammed ballot, including all fragments. If you cannot clear the paper jam via the described process without the use of tools, call 215-686-7800.
System Error During Voting	"Election Official Message. The system encountered a fatal error.... "	Follow the on-screen instructions and power down the device. Once powered down, turn the terminal back on again. If this does not resolve the problem, call 215-686-7800 .
Internal Flash Memory Card Failure	System displays an on-screen alert suspending all voting functions because the internal memory flash card device failed	Touch Shut Down. Once the terminal has powered down, set it aside and call 215-686-7800 .
Session Timeout & Canceling a Vote Session	"Vote Session Timed Out" Message	If the voter has fled without casting their ballot, then touch "End Voting" and spoil the ballot. If the voter is still voting, they should be allowed to continue voting. Touch the appropriate reason for canceling the vote session, then touch "Continue".

Touchscreen Does Not Register Touches Correctly		One or more of these suggestions may help: • Ensure nothing is touching the screen; e.g., fingernails, clothing items, and the voter is not leaning on the ExpressVote XL with their other hand. If issues persist, call 215-686-7800 .
Touchscreen is Slow or Unresponsive		Ensure there is nothing touching the screen. Remove any obstruction and wait 20 seconds without touching the screen; if the problem persists, power down and restart the ExpressVote XL. If issues persist, call 215-686-7800 .

GREETER / VOTER SIGN-IN

SPECIAL PROCEDURES

If a voter arrives with a **mail-in or absentee ballot**, including the declaration envelope, the Judge must spoil the ballot and allow the voter to vote on a machine once the voter has filled out an "Elector's Declaration to Surrender Their Mail Ballot." The voter must then sign into the poll book like normal.

If a voter **does not appear in poll book or supplemental poll book**, expand your search countywide to see if the voter is registered in a different Division. Direct them to the right Division. If you are unable to locate voter, they can vote via **provisional ballot**. See provisional ballot procedure on backside of Station 3 card.

If **"affirmation required,"** locate the Affirmation of Elector form in the Judge's folder and allow voter to step out of line to fill it out. Before voting, voter must fill out section A or B then sign section C while a poll worker observes. Poll worker must then sign form.

If **assistance is required** and need **IS** indicated in the poll book, the voter may proceed.

If **assistance is required** and need is **NOT** indicated in the poll book, locate the Assistance Declaration form in Judge's folder. Voter must fill out and sign the form. Judge and person assisting voter must sign before the voter votes. Completed form goes back in the Judge's Box and voter's name, assistant, and reason for assistance is entered into the Record of Assistance stapled to the front of the No. 2 envelope.
